ALPINE SAFETY RESPONSIBILITY CODE
Regardless of how you enjoy your snow sport, always show courtesy to others and be aware that there are inherent risks in all snow recreational activities that common sense and personal awareness can reduce. These risks include rapid changes in weather and surface, as well as natural and artificial hazards such as rocks, trees, stumps, bare spots, lift towers and snow gun hydrants. Observe the code listed 1 to 10 and share with others the responsibility for a great experience.

1. Know your ability and always stay in control and be able to stop and avoid other people or objects. It is your responsibility to stay in control on the ground and in the air.
2. Take lessons from qualified professional instructors to learn and progress.
3. As you proceed downhill or overtake another person, you must avoid the people below and beside you.
4. Do not stop where you obstruct a trail or run or are not visible from above.
5. When entering a trail or run or starting downhill, look uphill and give way to others.
6. When riding chairlifts always use the restraining devices. Always use suitable restraints to avoid runaway skiing/boarding equipment.
7. Observe and obey all signs and warnings. Keep off closed trails or runs and out of closed areas.
8. Before using any lift you must have the knowledge and ability to load, ride and unload safely.
9. Do not ski, snowboard, ride a chairlift or undertake any other alpine activity if your ability is impaired by drugs or alcohol.
10. If you are involved in, or witness an accident, alert Ski Patrol, remain at the scene and identify yourself to the Ski Patrol.

TRAIL SIGNS AND SYMBOLS
You'll find the trail signs shown above at various places on the mountain. They are there for your safety and protection. Please take note of them and obey them, particularly the "Trail Closed" and "Area Boundary" signs.

The trail signs used at Thredbo are the standard trail marking system used internationally. The symbols and colours indicate the relative difficulty of each trail. Bear in mind that this is relative difficulty only, and applies to the area in which the sign is found.

For example, a blue "more difficult" or black "most difficult" trail near Ramshead Chairlift may well be steeper than trails with the same markings at other parts of Thredbo or in other resorts.

The signs are a guide only. The most sensible path to follow is never take anything for granted. If you don't know a trail, treat it with caution.

Tobogganing in Thredbo is prohibited.

KNOW THE CODE - IT'S YOUR RESPONSIBILITY. FAILURE TO OBSERVE THE CODE MAY RESULT IN CANCELLATION OF YOUR TICKET OR PASS BY SKI PATROL OR OTHER AUTHORISED PERSONNEL.

PLEASE NOTE
Use of any facilities or services is subject to the conditions set out on your ticket.

- A valid ticket entitling use of any facility or service must be produced upon request or demand by Kosciuszko Thredbo Pty Limited personnel.
- All recreational and sporting activities are inherently hazardous, and your participation in any such activity is an assumption by you of the risk of loss, damage or injury to you or your property (or death).
- Weather conditions (including temperature) on mountains and slopes may change suddenly. This area and surrounding grounds have uneven surfaces. Grounds may be covered with snow and ice and can be slippery. Therefore, appropriate clothing and footwear should be worn.
- Skiers and Snowboarders found skiing/boarding out of control and/or behaving recklessly will have their tickets confiscated.

SAFETY AND EQUIPMENT
NEVER judge weather conditions on the mountain by what you can see in the Village. Remember that mountain weather can change quickly. It's better to overdress - after all, you can always take something off. Try to wear several thin layers of clothing, rather than one thick layer.

HATS ARE IMPORTANT - Your body loses a major part of its heat through your head. If you're cold, put a hat on. If you're over-heating, take it off. Make sure you always have the following with you: a warm hat, goggles or sunglasses, warm gloves and sunscreen for when the sun comes out.

HYPOTHERMIA - Is when a person loses so much body heat they lose the ability to re-warm themselves. The body's "stored energy" has been expended, leaving nothing to maintain body temperature at a safe level. Hypothermia is a result of cold weather conditions and high physical exertion. It can be dangerous. If you, or one of your party, begin showing symptoms such as shivering, loss of coordination, garbled speech, confusion, tiredness and lethargy **get in out of the cold, quickly.**

DIFFICULT CONDITIONS - White outs: During snow storms or high winds, visibility may suddenly be drastically reduced. Severe diffusion of light makes it hard to distinguish ground detail. • Ski/board slowly and beware of sudden drops or wind rolls. • Ski/board on tree-lined trails, as they will provide shelter and cast enough shadow to improve visibility.

Wet Conditions: Wear wet weather gear and remember, plastic rainwear slides easily on snow and ice. **So be careful!**

NB - Natural and man-made obstacles are a part of the alpine experience. Collision with these objects, can result in serious or fatal injury. Ski/board with caution and in control. Expect the unexpected.

While skiing/boarding you may encounter rocks and trees, changing visibility and snow conditions. Be aware of snow grooming machines and snowmobiles at all times.

NOKIA PARK

A progression of Terrain Parks from beginner to advanced is capped off in the Nokia Park - a jibber's paradise with fun boxes, rails and table tops located just off the top of Antons.

NIGHT RIDING *

Night skiing and boarding are available every Thursday and Saturday* during July and August. FREE for anyone holding a valid Thredbo lift pass for that day. *weather and conditions permitting

FLARE RUN *
